

## Screening and EQIA Report October 2023

St Mary's University College made a commitment in its Equality Scheme to publish the outcome of its screening exercises. The purpose of screening is to identify those policies which are likely to have an impact on equality of opportunity and/or good relations. The policies listed below were screened out and do not require an equality impact assessment.

Research Strategy	No impact and no EQIA required	<p>The research strategy sets out the College priorities in developing a research profile within the academic community and producing research that informs the learning and teaching of students.</p> <p>There is no evidence to suggest that the strategy is likely to impact negatively on any of the nine equality groups or that the policy does not promote equality of opportunity to the nine equality groups. The policy does not negatively impact on good relations between people of different religious belief, political opinion and/or racial group.</p>
